Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 August 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-49 have been considered but are moot in view of the new ground(s) of rejection. The newly added limitations regarding the three dimensions of position and at least two positions of orientation constitute new grounds for rejection.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishiwawa et al.'448 (US Patent NO. 6,447,448) in view of Mullick et al.'000 (US PGPUB 20030167000).

Ishiwawa et al.'448 teach all the elements of the current invention including a wireless transponder having at least one sensor coil, a control circuit and a power coil so arranged so as to transmit RF signals wherein the signal includes among other information, positional information of the transponder (see col. 5, line 44- col. 6, line 43).

Ishiwawa et al.'448 do not disclose a plurality of field generators, but Ishiwawa et al.'448 states that interrogation generators are well known in the art (see col. 6, lines 30-43). Therefore, it would have been obvious to one skilled in the art at the time that the invention was made to have used a number of generators in order to interrogate the position of the transponder.

Ishiwawa et al.'448 do not teach circuits to determine three dimensions of position and at least two positions of orientation.

In the same field of endeavor, Mullick et al.'000 teach a transponder (or capsule) with a position and orientation monitor including six degrees of freedom to allow for a more accurate determination of the location of the transponder with respect to the body (see paragraph 0061).

It would have been obvious to one skilled in the art at the time that the invention was made to have modified Ishikawa et al.'448 and incorporated the teaching of Mullick et al.'000 in order to more accurately determine the location of the transponder, both its position and orientation.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
